

Internship Production

Would you like to discover how the day-to-day operations of a manufacturing company work? At Capital Ornaments, you will become part of our existing business processes and have the opportunity to gain experience across different areas of our production organization. You will be involved in the day-to-day operations, giving you a broad understanding of what is needed to ensure that our production and logistics processes run smoothly.

What will you do?

As an intern, you will support various activities within the daily operations of Capital Ornaments. Your responsibilities may include:

- Supporting logistics processes, for example relating to the delivery and movement of pallets;
- Assisting with facility management at our production site;
- Supporting purchasing processes and ordering necessary materials and supplies;
- Assisting with various planning activities, including workforce and production planning;
- Supporting day-to-day operational activities;
- Communicating with different departments and colleagues to ensure that activities are properly coordinated;
- Taking on practical issues and challenges that arise within the organization.

By working across different processes, you will gain a good understanding of how production, logistics, planning, purchasing and facility management are connected.

Contributing to improvements

The main focus of this internship is gaining hands-on experience within our existing processes. You will therefore not primarily be working on a large optimization or improvement project.

Of course, there is always room to contribute ideas. If you notice during your work that a process could be made smarter, more efficient or easier, we encourage you to raise this and, where possible, contribute to implementing an improvement.

Who are we looking for?

We are looking for an enthusiastic and hands-on intern who is eager to learn how a manufacturing organization operates on a day-to-day basis.

You:

- Are pursuing a relevant MBO, HBO or WO degree, for example in Business Administration, Logistics, Operations, Supply Chain or a related field;
- Are hands-on and enjoy taking on a variety of tasks;
- Work accurately and in an organized manner;
- Are not afraid to ask questions or take initiative;
- Enjoy working with different departments and colleagues;
- Are flexible and enjoy variety in your work.

What do we offer?

At Capital Ornaments, you will have the opportunity to actively contribute to the day-to-day operations of a manufacturing organization. You will not simply be observing from the sidelines; you will become part of our daily operations.

You will receive:

- Broad exposure to different business processes;
- Practical experience in a manufacturing environment;
- Guidance and support from experienced colleagues;
- The opportunity to work alongside different departments and gain insight into their activities;
- The freedom to share your own ideas and suggestions for improvement;
- A suitable internship allowance.

About Capital Ornaments

Capital Ornaments B.V. is the manufacturing company behind Capi Europe. Our products are developed and manufactured in Tilburg. Within Capital Ornaments, different disciplines work closely together to ensure that our production and logistics processes run smoothly every day.

Thanks to the variety of activities and the short communication lines within the organization, this internship offers you the opportunity to learn a great deal about the day-to-day reality of working in a manufacturing company.

Interested?

Are you hands-on, eager to learn, and interested in gaining experience across different business processes? We would love to meet you!

Apply directly by sending your CV and cover letter to our HR department at [**hr@capi-europe.com**](mailto:hr@capi-europe.com).
